

Jody Lisle

Nomination for ISQ Council Member

I have had extensive involvement within the skating community spanning over 16 years, alongside multifaceted leadership roles, underscoring a dedication to the advancement of the sport. As the incumbent President of the Boondall Figure Skating Club Inc. for the fourth consecutive term and my previous service in various capacities, including Competition Convenor and Ice Show Coordinator, I am passionate about our commitment to fostering growth and excellence within the sport of figure.

I am a current Council Member of the ISQ Council and I am a member of Australian Institute of Directors having completed the Governance and Finance for Not-For Profits' course. My work with ISQ to date has consisted of serving on the Local organising committees for State Championships and National Championships over a number of years and this year I have taken on grants work.

I also volunteered my time to create the ISQ online forms that were originally used for Public Sessions bookings, Skate School and Stars after COVID. I also volunteer at competitions for accounting which involves using the IJS system.

I have been involved with other sports through the year such as martial arts and netball. I am also now involved as a volunteer with our local AFL club for which my sons play.

I currently work part-time for my driving school business which I have been operating for the past 6yrs and work full-time in an administration role for Ozcare.

My earlier experience has included 20yrs in the aviation industry, working for Qantas and while there I worked in several key areas. A majority of my time was spent on tarmac, managing the loading of aircrafts and the on-time departures of international flights. I also worked as Training Administrator and was responsible for keeping our National Training compliance for the 500 staff to an acceptable level.

I believe with my project management, leadership and people management skills, understanding of risk and compliance obligations and unwavering commitment I would be a valuable asset to Ice Skating Queensland as we move forward.
